AN OPEN LETTER TO PSALM

We, the members of the Federation of Rural Electric Cooperatives of Region VIII (FRECOR-VIII), would like to APPEAL to the national leadership, particularly to the Power Sector Assets and Liabilities Management Corporation (PSALM) to defer the bidding for the PRIVATIZATION of the Unified Leyte Geothermal Assets scheduled on June 25, 2010, in order to give the new administration a chance to review the government's privatization policies and pricing scheme in the power sector.

The government has been maximizing its revenue in the sale of the power plants of the National Power Corporation (NPC) by setting a reserve price based on a market price of a brand new power plant. Previous privatization transactions have shown that the participants have submitted unexpectedly high bids which are way above the reserve price set by the PSALM. It is very unfortunate that government is benefiting from the privatization at the expense of the consuming public who will pay again for the assets that have been paid before through the rates of the NPC.

If the privatization of the Unified Leyte Geothermal Power Contracts will push through under the existing policies and pricing scheme of the government, we fear that it will result in irreversible impact that will continue to increase the electricity rates contrary to the objective of the Electric Power Industry Reform Act (EPIRA).

We urge the public and concerned leaders to support this call for the deferment of the privatization of the remaining NPC Power Contracts to provide ample time for the new government to review, promulgate and implement policies that will lessen the burden of the consumers and make our country globally competitive.

Signed this 22nd day of June 2010 in Cebu, Eastern Samar.

Arroyo must necessarily push for Philippines

Dear Editor: I am writing to you regarding the Golden Rule. I am a Filipino and I am proud of my country. I am also a Christian and I believe in the Golden Rule. However, I believe that the Golden Rule should not be used to justify the actions of the Philippine government. The Golden Rule is a principle that states that one should treat others as one would like to be treated. This is a principle that is often used to justify the actions of the Philippine government. DOJ raps gov't lawyer in Maguindanao massacre case

By Steve E. Swearingen
and Ramsey W. Swearingen

WASHINGTON, D.C. (AP) — The Justice Department on Tuesday criticized a government lawyer for his role in the Maguindanao massacre case, saying he had "acted in a manner that was inconsistent with the duties of a government lawyer." The criticism came in a letter from the department's inspector general, which was obtained by The Associated Press. The letter said that the lawyer, who is now a senior advisor to the attorney general, had "acted in a manner that was inconsistent with the duties of a government lawyer." The letter also said that the lawyer had "acted in a manner that was inconsistent with the duties of a government lawyer."

12,000 in S Cotabato rally urge gov' Sign open-pit mine ban

DIWATA, COTABATO—A group of 12,000 people gathered in a large open area in Cotabato City, Mindanao, to demand that the government sign a law banning open-pit mining in the region. The rally was organized by a coalition of environmental groups and local residents who are concerned about the impact of open-pit mining on the environment and the livelihoods of the people living in the area. The coalition, known as the "No Open-Pit Mining in Cotabato" coalition, has been active in the region for several years, fighting against the expansion of open-pit mining operations. The coalition's leaders said that the government has failed to protect the environment and the people of Cotabato from the harmful effects of open-pit mining. They said that the government should sign a law that bans open-pit mining in the region, and that it should also take steps to protect the environment and the livelihoods of the people living in the area. The coalition's leaders also said that they would continue to fight for the ban on open-pit mining, and that they would not stop until the government signs the law. The rally was a success, with many people attending and expressing their support for the coalition's demands. The coalition's leaders said that they would continue to work with the government to bring about the ban on open-pit mining, and that they would also continue to protect the environment and the livelihoods of the people living in the area.

A Toast to a Golden Manila

Manila, the capital of the Philippines, is a city of contrasts. It is a city of old and new, of tradition and modernity. It is a city of beauty and chaos, of peace and conflict. It is a city of hope and despair, of love and hate. It is a city of many faces, many voices, many stories. It is a city that has shaped the destiny of a nation, and it is a city that continues to shape the future of a people.

Maynilad plugs leaks, trims water losses to 53%

Non-revenue water down from 61% in 2009, says firm

Maynilad Water Services Inc. (MWSI) has successfully reduced its non-revenue water (NRW) losses to 53% from 61% in 2009, a significant improvement in its water management efficiency. The company, which is a joint venture between Manila Water Co. Inc. and a consortium of international investors, has implemented various measures to identify and plug leaks across its extensive network of pipes and infrastructure. This reduction in NRW not only helps in conserving water resources but also translates into cost savings for the company, as less water is lost before reaching the end-users. MWSI's commitment to operational excellence and sustainable water supply is evident in these efforts to minimize losses and ensure a reliable water supply to the communities it serves.

BahayBonds get top rating

Endorsed by S&P

BahayBonds, a government-backed housing finance instrument, has received the highest credit rating from Standard & Poor's (S&P). This endorsement signifies the strong financial health and creditworthiness of the program, which is designed to provide affordable housing solutions for Filipinos. The S&P rating is a testament to the commitment of the Philippine government to support the housing sector and ensure that BahayBonds remain a viable and attractive option for investors and borrowers alike. The program's success in securing such a high rating reflects the confidence of the international financial community in the Philippines' economic and financial stability.

COFFEE is the most popular beverage in the world, and it's no wonder. It's a delicious, energizing drink that can help you stay alert and focused throughout the day. But did you know that coffee can also be good for your health? Studies have shown that drinking coffee regularly can reduce the risk of heart disease, type 2 diabetes, and even some types of cancer. So, if you're a coffee lover, you're already doing your body good.

Eco-friendly and energy-saving cookware

With the growing concern for the environment, many people are looking for ways to reduce their carbon footprint. One of the easiest ways to do this is by using eco-friendly and energy-saving cookware. This type of cookware is designed to be more efficient than traditional cookware, which means it uses less energy to heat food. This not only helps the environment but also saves you money on your energy bills. There are many different types of eco-friendly cookware available, including induction cooktops, ceramic cookware, and stainless steel cookware. Each type has its own benefits, so it's important to choose the one that best fits your needs and budget.

eco-friendly cookware is a great way to reduce your carbon footprint and save money on energy bills. Induction cooktops, ceramic cookware, and stainless steel cookware are all great options.
